**NEW** Paid Programs are coming in May and June

Specialty Equipment or Location  
Highly Certified Instruction  
Weekly Progressions

Outdoor Fit Fusion, Run Club, Power Tai Chi, Lakeside Mat Pilates and Yoga at the Lake

Format Options: Aqua Cardio Fusion Mind Body Strength

## GROUP FITNESS All Level Classes:

**31 and DONE:** No time. No excuse. In this 31 minute circuit class, you will visit 5 stations. Each station will focus on sculpting a different muscle group with a variety of equipment. The transitions will give you just enough time to recover and prepare for a new task.

**Barebones Intervals:** Nothing but your bodyweight will be used for 45 seconds of work followed by 15 seconds of rest. You pick the pace and the intensity with a variety of options for each exercise.

**Circuit Training:** Workouts are more fun when they are done in a group! Explore the equipment available on the fitness floor and unique equipment in the studio while strength training with friends. The instructor will offer options and demonstrate the exercises in each set.

**Cycle:** Get in your zone as you ride to energizing music in a low lit room. The instructor will keep you motivated while you adjust resistance, play with speed and change body positions on the bike.

**H2O Fitness:** Using the resistance created by the water, you can increase muscle strength, build endurance and reduce impact placed on the joints during a land workout. Not to mention reducing stress and decreasing anxiety in a fun atmosphere.

**Muscle Conditioning:** Strengthen and tone every major muscle group with the help of balls, bands, dumbbells and more. The instructor will include options to accommodate all ability levels and help you reach your fitness goals.

**Pilates:** Using the same principles created by Joseph Pilates during the 20th century, you will complete movement patterns that will promote body alignment, core strength and muscular balance. The perfect compliment to any workout routine.

**PILOXING** : The unique blend of Pilates, boxing and dance will strengthen your muscles, improve your balance and increase your cardiovascular ability. The non-stop intervals will leave you feeling motivated and will make the class time fly by.

**Tabata:** A 45 minute interval workout designed to burn maximum calories during and after class. Move at your own pace as the instructor guides you through bursts of strength and aerobic training followed by recovery time.

**Vertical Pilates:** Receive the same benefits of Mat Pilates while remaining upright. Light weight and bodyweight sets will allow you to focus on fundamental movement patterns and tone muscles from head to toe.

**WERO** : A fiercely fun dance fitness workout including pop, rock and hip hop music. You'll be right on count after the steps are previewed in the warm-up. Reward your hard working muscles with a yoga inspired stretch to finish the class.

**Yoga:** Take time to center yourself while increasing strength, stability and flexibility. A variety of poses will be presented each class to refine your practice. Props are available to assist with more difficult poses and increase comfort. (**Yoga Express:** 40 min. Novice Level)

 **Fitness:** Nothing gets your heart racing and muscles pumping like a fitness dance party. Step, slide and shake your way through a variety of Latin music with help from your certified instructor. You will have so much fun that you will forget you are working out.

 **Toning:** Enjoy the same fitness party atmosphere as Zumba with a dash of muscle toning.

## GROUP FITNESS For Active Older Adults and Novice Participants:

**Aqua ROM:** Step into a therapeutic environment. The water will alleviate pressure on injured or weak joints. During this class, you will increase strength and endurance in a cool and carefree environment.

**ROM:** Promote active aging or transition into a workout routine while keeping your joints happy. Bands, balls and light weights will be used during low to no impact movements. Strength, balance and flexibility exercises are included to improve your range of motion.

 **Gold:** Take the fitness dance party down just a notch to create a great cardiovascular workout for active adults. Latin music and instructor enthusiasm will inspire you to let loose as you improve balance, coordination and range of motion.

## Paid Programs Available at an Additional Cost:

**Aqua Pursuit, Flow Power Yoga, MHS Strength, MMA Conditioning, Power Ride, Tai Chi, Ultimate Boot Camp & Vinyasa Yoga:** Please see page 58-59 of the Mundelein Park and Recreation District Winter/Spring Program Guide for prices, descriptions and registration details. \*Register at least 1 week prior to the start date
