CONNECTING CHILDREN TO LEARNING AND FUN!

MUNDELEIN, IL — Mundelein Park & Recreation District is excited to announce Mundelein E-Learning Hub, created to assist working parents with childcare during their school’s remote learning period. This program provides a safe learning environment for children in grades k-8 in School Districts 75, 76 and 79.

Children will be put into small groups of no more than 15 and organized by school and grade level. Sites will be limited to a maximum of 50 students. Students will receive supportive help from experienced staff, allowing him/her to excel during required online learning. Students’ regular teachers will provide all remote learning, and children will follow their school’s bell schedule.

“Running summer camp during the pandemic has given us the experience we need to provide a quality e-learning program. Our number one goal is to keep students safe. We will follow all COVID precautions, as recommended by the IDPH and the CDC, including mask-wearing and social distancing.” said Recreation Supervisor Cheri Rehor.

While safety is a priority, the Park District also realizes the importance of social and emotional health. That is why The Park District will also offer guided physical and enrichment activities along with time for free play.

“Our goal is to create an environment that is exciting and fun for children while encouraging their e-learning. We also recognize that many parents are struggling with the pressure of juggling their jobs and their child’s schoolwork. Creating a program that students enjoy will help to alleviate that stress,” explained Recreation Supervisor, Cheri Rehor.

Mundelein E-Learning Hub hours are from 7 am-3:30 pm. The weekly rate for this program is \$150 for residents and \$210 for nonresidents (in School Districts 76 & 79). For an additional fee, the District will provide extended care until 6 pm. Registration opens on August 10. The program begins on August 27.
